Participation at WSI Summer Institute is designed to support interaction between educators and teaching artists.

TEACHING ARTIST SESSION DESCRIPTIONS

Teaching Artist Showcase: 3 Minutes & a Microphone

Sign up is through conference registration at mswholeschools.org

This popular session returns, featuring teaching artists in a fast-paced presentation. This is an opportunity to share with classroom teachers how you connect music, art, storytelling, drama and more to non-arts academic classroom content. Take advantage of the opportunity to meet teachers and begin making plans for further arts-integrated learning in the classroom. Bring your calendar and be prepared to start penciling in residency and/or performance dates for the 2018-2019 school year!

Arts Integration Coaching & Team Building

This is a two-part training session

This session on the essentials of arts integration methodology offers distinctions in planning, support, and implementation of team roles, analysis of authentic art and arts integration in classrooms, vital tools for constructing and deconstructing rigorous, standards-based lessons, and an in-depth discussion of reflection as a tool for arts integration lesson planning clarity and student assessment.

What's Your Story? Models of Public Support for Arts and Arts Integration

This session approaches the idea of advocating for the arts from a multi-pronged approach. Presenters from national, state, and local levels will share their work and their approach.

Digging into Advocacy

Building on *What's Your Story?*, this session will take a dive into the world of policy and advocacy. Build your understanding and strengthen your personal approach. This information is a must for the personal toolkit of all artists!
